

## News Update

# NEW ORDER!

*Congratulations* to Jackie and Mr Choe on winning a new order from Hyundai.

The *Hyundai Sports Cafe* will be a technically difficult project operating a smoke free environment to a set-point temperature for mixed use by smokers and non-smokers.

We will use an environmental sensor to control outdoor air as well as energy recovery in the zone unit so only outdoor air is used, no recirculation as in offices.

London 30<sup>th</sup> March 2010.
